DIAMOND COATED COUNTERSINK TOOLS

Diamond Electroplated Countersink Tools
are designed for use on glass, also suitable for ceramic,
stone, fibreglass, granite and hard plastics.

Diamond Electroplated Tools
offer many advantages when compared with conventional
impregnated tools (metal bond type) - such as shape
integrity, fast cut and cost effective recoating.

Manufactured in Australia to high standards
using Element 6 Natural Diamond or premium synthetic
for special applications.

DISTRIBUTED BY

MADE IN AUSTRALIA
